

Download Capacity Assessment And The Law Problems And Solutions

The triggers to assess capacity, who to involve in the assessment process, as well as how to conduct that assessment process are discussed. The crucial relationship between the legal and health professionals involved in assessments, including growing concerns around practitioner liability, is also explored. This is an inescapable problem with significant legal, social, health and policy repercussions. This work synthesises and critically analyses the existing literature, including some of the best assessment models and guiding principles internationally, to generate a new methodology and understanding of what capacity assessment best practice means.
